

## U-M Data Science Research Forum Friday, December 1 | Michigan League

Featuring faculty and student presentations on data science research across the university

## Keynote Address:

"Closing the Loop Between Mind and Machine: Building Algorithms to Interface with Brains at Multiple Stages"

Chris Rozell, Associate Professor, Electrical Engineering & Computer Engineering, Georgia Institute of Technology

## **Forum Highlights**

- Oral and poster presentations on
  - Theoretical foundations of data science
  - Data science methodology
  - Data science applications in any research domain
  - Social impact of data science research
- Industry engagement workshop
  - Adrian Fortino. Partner. Mercury Fund
  - Mike Psarouthakis, Director, U-M Venture Center
  - **Kevyn Collins-Thompson**, Associate Professor, U-M School of Information
  - Mike Cafarella, Associate Professor, U-M Computer Science and Engineering
- Presentations on data science infrastructure and consulting services
  - **Brock Palen**, Director of Advanced Research Computing Technology Services
  - Kerby Shedden, Director of Consulting for Statistics, Computing and Analytics Research
