

DATA ANALYTICS: A DRIVER FOR COMPETENCY-BASED LEARNING

Susan Rundell Singer

Vice President for Academic Affairs and Provost

Rollins College

Institution-wide Perspective

- **Competencies for work of the future**
 - Leverage general education
- **Integrated approach to data management and analytics to iteratively improve university-based and workplace-based acquisition of competence**

Preparing students & workers: Work of the Future

➤ T-shaped individuals

- Deep disciplinary knowledge and competencies
- Ability to work across disciplinary domains
- Strong intrapersonal and interpersonal skills (socio-emotional domain)

➤ Growing body of evidence on learning provides guidance for redesigning the undergraduate experience to:

- support students' success as learners, and
- as adaptive contributors in the workforce.

To meet the challenges of tomorrow:

NAE Grand Challenges Scholars Program

Robot-Ready

- Talent Competency: mentored research/creative experience
- Multidisciplinary Competency
- Viable Business/Entrepreneurship Competency
- Multicultural Competency
- Social Consciousness Competency

General Education: For a World of Unscripted Problems

Focused study in a major

Foundations:

- Themed & Integrated
- Developmental
- Capstone

Learning Science + Learning @ Scale + Data Analytics → Enhanced Competency

Postsecondary and Workplace Based Learning

Managing and Analyzing a Sea of Data

Higher Education

- Class-based Learning
- Online Learning/Simulations/VR
- Course Management Systems
- General Education & Majors/Minors
- Certificates/Credentials (Lynda.com)
- Career and Life Planning
- Student Success Initiatives
- Institutional Research
- Institutional Effectiveness
- Financial Aid
- Finance
- Alumni affairs

A lot of
data to
manage

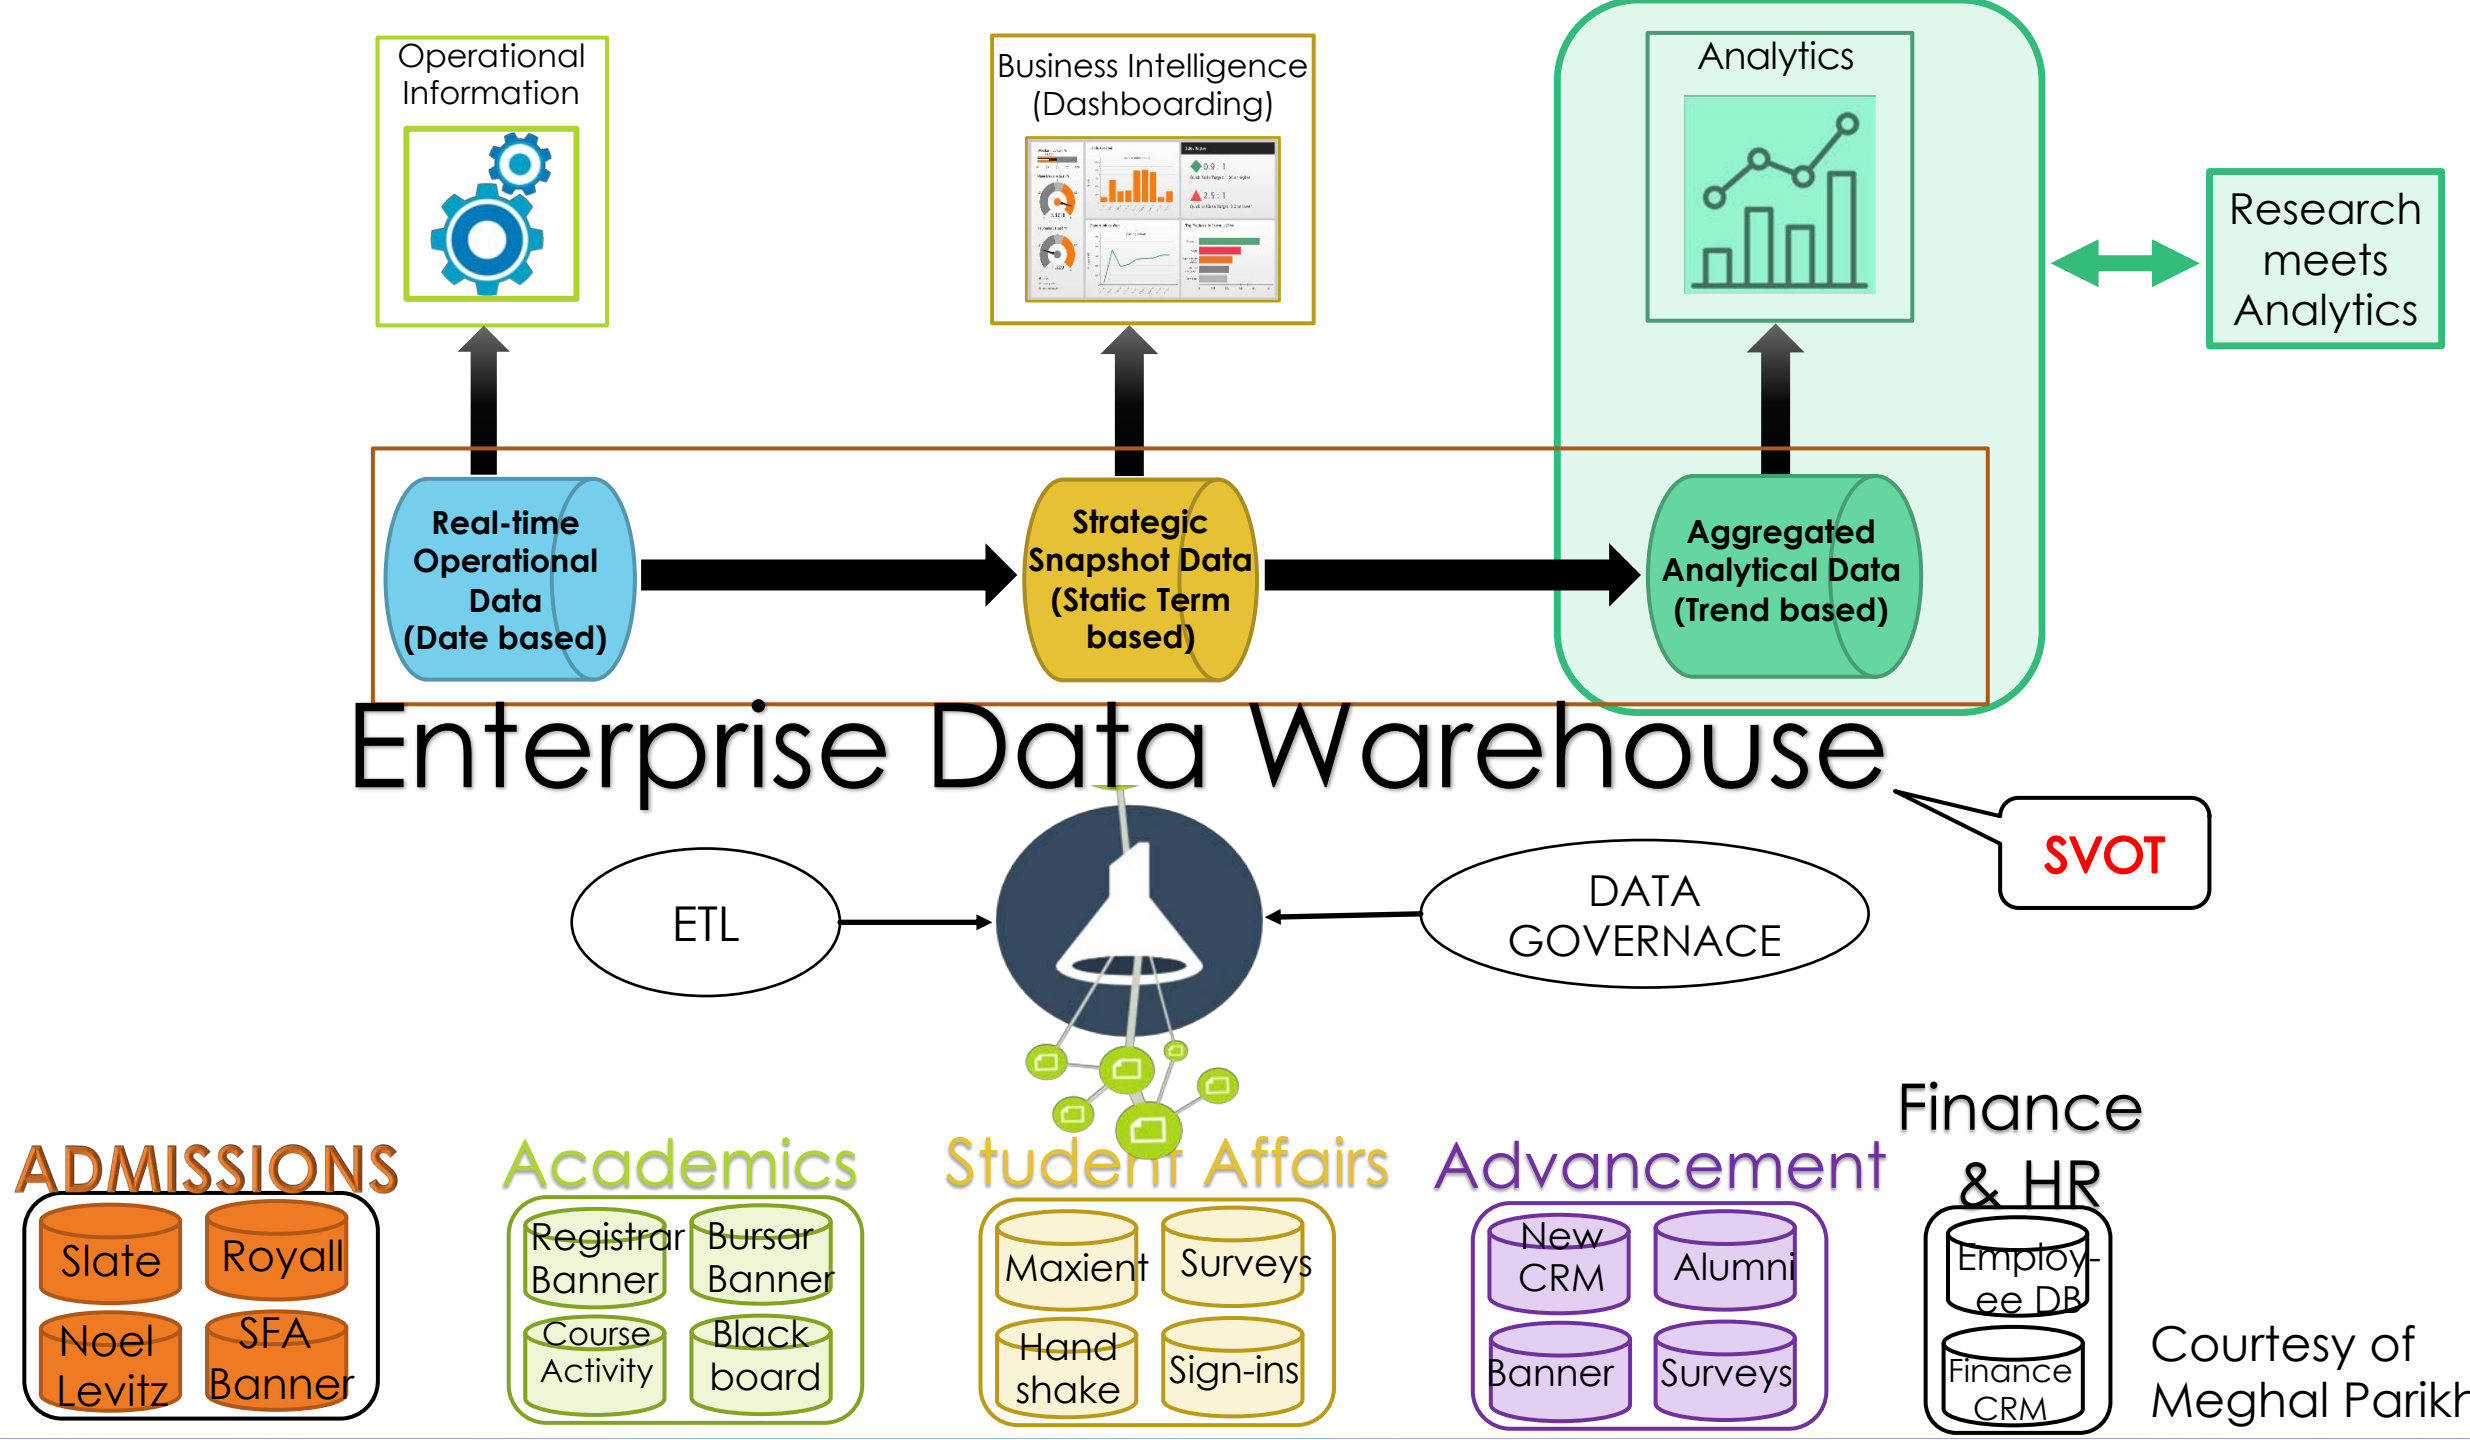

Pattern Detection

- AI
- Machine Learning

Workplace-based learning

- Micro-internships
- Internships
- Co-ops
- Apprenticeships
- Upskilling
- Hands on & online
- Certification
- Credentials
- Micro-masters

Analytics

Computers & Information Technology

Snapshot of a computer science course taught by David Liben-Nowell, Associate Professor of Computer Science.

The Carleton undergraduate experience provides a uniquely strong foundation for careers that deal with computers and technology. The ability to think critically, communicate clearly, and understand industry standards is a huge benefit. Students can participate in various events around campus related to this pathway, such as the annual [CarlHacks national hackathon](#).

Internships & Job Sites to Consider

This list of internships and jobs is not intended to be a comprehensive guide to all opportunities in this particular career path. Rather, this page offers a sampling of different options for students interested in careers in Computers and Information Technology. Additional resources can be found online and in-person at the Career Center.

Find out more about jobs and internships at the [Career Center](#) page: [The Tunnel: Job and Internship Postings](#). Career Center internship database: [Where have Carleton students interned?](#)

Additionally, thanks to the generosity of former Carls (alumni and parents), there are a number of funding opportunities that may be able to support your internship. Take a look at the [Career Center's list of funding opportunities for internships](#) to determine whether you might be able to apply for internship funding.

For career opportunities and internship information, also check out the [Carleton Sentinel](#), the newsletter of the Department of Computer Science and the [Computer Science Student Opportunities](#) page.

Apple Internships

Alumni Directory: [Alumni working at Apple](#)

Join hundreds of other interns from around the world working in areas such as communications, design, finance, hardware engineering, information technology, marketing, operations, software, and wellness. This is hands-on learning at its best.

Careers at Care2

Alumni Directory: [Alumni working at Care2](#)

Care2 is the largest online community of people passionate about making a difference.

Chegg

Alumni Directory: [Alumni working at Chegg](#)

Students on more than 7,000 campuses nationwide use Chegg for homework help, courses, textbook and eTextbook options, student deals, scholarships and more!

Code 42 Software, Inc.

Alumni Directory: [Alumni working at Code 42](#)

Code 42 is an innovative software company in Northeast Minneapolis. We protect the world's data with our current products, CrashPlan, CrashPlan PRO and CrashPlan PROe. Code 42 is at a stage of intense growth right now, so this is an excellent time to get on board and have a real impact on a truly great company.
